USE

A COMPREHENSIVE RANGE TAILORED TO INDUSTRIAL SECTORS.

- Metal, plastic or glass packaging: we have a comprehensive range to provide effective packaging for your sensitive or dangerous products, whether they are liquid, solid or viscous.
- Dedicated accessories make the packaging easier to handle and optimise the conditions of use.
- Unrivalled water tightness thanks to the precision matching of packaging with seals. Fitted torque wrenches and tightening torque recommendations are available.
- Tamper-proof guarantee on most models provided by tearing or self-breaking collars, with seals also available.

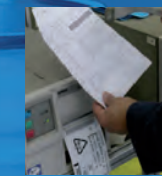

QUALITY

CERTIFIED EXPERTISE.

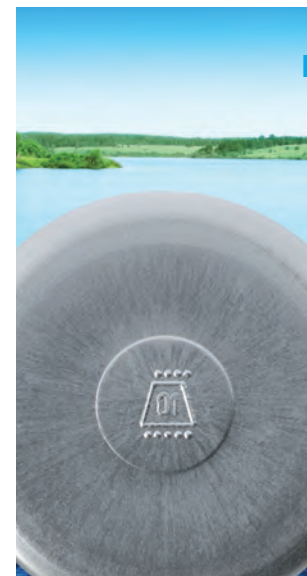

- Certified quality assurance process that meets the ISO 9001 standard.
- Satisfying the requirements of customers (pharmaceutical GMP, foodstuff HACCP, AIB and BRC).
- State of the art aluminium transformation processes: forming, washing, surface treating etc.
- Expertise and precise skills in blowing multilayer barrier plastic packaging.
- Automatic and systematic checks on production lines.
- Full traceability from raw materials to finished products.

ADVICE

SOLUTIONS FOR ALL YOUR NEEDS.

- Expertise in several market applications including Pharmaceutical APIs, Flavors & Fragrances, Nutraceuticals & Food Ingredients, Specialty Chemicals...
- Complete product range for you thanks to our large range of standard products and the option of specially-designed ranges.
- Experienced development team providing accurate advices to design the most suitable packaging
- Customised artwork on bottles and caps: sleeves, silk-screen printing, lacquering, pad printing and more.

ENVIRONMENT

TOTAL RESPECT.

Tournaire SA is conscious of its social responsibility and has implemented:

- Reduction of natural resources consumption (water and energy).
- Maximal recycling of aluminium and plastic off-cuts in line with the CE 94/62 standard.
- Onsite water treatment.

This commitment has resulted in ISO 14001 certification for our production sites.

ONLY TOURNAIRE CAN GIVE YOU THE TOURNAIRE QUALITY

- Active pharmaceutical ingredients, aromatic raw ingredients, solvents, liquid crystals and more: whatever the sensitive products you entrust to Tournaire packaging, you can be sure they will arrive at their destination safe and sound.
- From the choice of raw materials to the forwarder, the design and manufacture, Tournaire is committed to providing you with unique packaging to protect your products.
- With pure aluminium used in our aluminium ranges, seals that are impossible to copy and levels of cleanliness that meet even the most stringent standards, the characteristics of your products will be perfectly preserved.
- Tournaire's aluminium packaging is one piece, meaning it is seamless, eliminating the risk of leaks.
- Tournaire's multilayer coex bottles provide the highest level of barrier properties for plastic containers.
- Our packaging is checked throughout the manufacturing process using quality assurance procedures certified by the ISO 9001 standard.

Market Applications:

Flavors & Fragrances, Beauty & Well-being, Human and animal health, Food ingredients, Nutraceuticals, Crop protection, Electronics & Laboratories, Speciality chemicals.

LOGISTICS

OPTIMISED ORGANISATION.

- Permanent stocks of standard products from 15ml to 32 litres.
- Geographical proximity thanks to a network of agents and distributors on the six continents.
- Flexibility through grouped deliveries and lower minimum quantities.
- Extensive logistics options with a choice of pallet or box packaging adapted to suit different products, transport methods and uses.
- Dynamic stock management using barcodes.

REGULATIONS

RIGOROUS COMPLIANCE.

- The Original System Plus range is stand alone UN certified for the transport of dangerous goods.
- Regulatory support for your pharmaceutical, veterinary and foodstuff certification procedures.
- Packaging suitable for contact with foodstuffs and for application of the HACCP benchmark to new production lines.
- MASE certification for improved safety of employees and security of facilities.
