- Integrity: cleanliness, tightness, tamper evident closure, quality consistency.
- High end brand image for your products.
- Low carbon footprint.

## Transporting Sampling

Since 1833,  
**Tournaire**  
protects  
flavors & fragrances

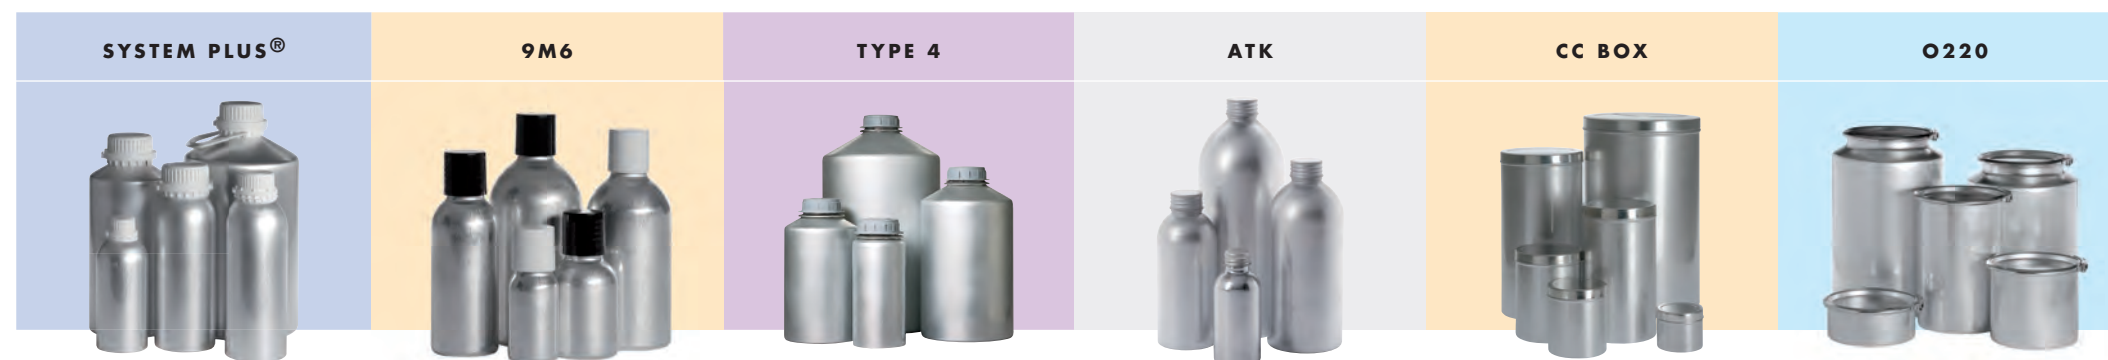

### At the heart of your business.

It was with the first distillers of perfume plants of Grasse that the company Tournaire was born in 1833. Boilermaker at the origin, we are today manufacturer of aluminum bottles and advanced equipments for the process of natural materials...

For you, we guarantee the highest level of quality, service and safety, with more than 250 employees, two production sites, a distribution subsidiary in the USA and soon a subsidiary in Asia, closer to the markets.

### Tournaire Equipment: Processing the most diverse natural raw materials.

Flowers, leaves, gums, resins, various powders... Whatever type of natural raw materials you use, we have the most suitable equipment. Production of essential oils, concrete, absolute, resinoids, oleoresins... (stired or static discontinuous extractors, distillers, filters...).

### Tournaire at your service

- UN certified packaging.
- Providing compatibility and regulatory studies.
- Customization of bottles and closures.
- Compatible with security seal, cap chucks and tighteners available.

Absolutes  
Concretes
