

Transport and storage of chemicals

● LIQUID PRODUCTS

CHEM 42™

Made of pure aluminum, the Chem 42™ range, offers a protection against shocks, compressions or perforations and maintains the integrity of your products thanks to the chemical neutrality of the aluminum.

The one-piece body structure ensures the best stability and security.

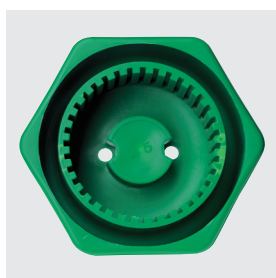

MAIN USES

Ideal for storage and transport of speciality chemicals (industrial adhesives and primers, agrochemicals and veterinary products, solvents, motor additives, gasoline samples...).

Seamless aluminum container

100% recyclable

CHEM 42™

LIGHT AND RESISTANT

- Pure aluminum.
- Excellent mechanical resistance: against shocks, perforations and compressions caused during transport.
