Protecting the essential since 1833

**TOURNAIRE**  
Protecting the essential since 1833

Since 1833,  
**Tournaire**  
 protects  
 flavors & fragrances

**In the heart of your business.**

Started together with the first distillers of perfume plants of Grasse, Tournaire was founded in 1833. Boilermaker at the origin, Tournaire is today the market leader of aluminum bottles for the F&F industry and specialty chemicals.

Aluminium bottles of Tournaire offer the highest level of quality, service and safety, with more than 300 employees, two production sites, two distribution subsidiaries in the USA and Asia, closer to clients.

**Pure Aluminium:**  
**Tournaire original, the choice for supporting sustainability.**

Tournaire has chosen pure Aluminium because it is light, gas and UV tight, neutral and rust free. It is also the most widespread metal on earth and it is infinitely and easily recyclable: recycling one ton of aluminium saves five tons of bauxite. Nearly 75 percent of all aluminium ever produced is still in use today making aluminium one of the most sustainable packaging materials.

# THE TOURNAIRE SOLUTIONS

## Protecting Storing

**The widest range of aluminum available anywhere in the World**

- Large choice of capacities (from 0.15 to 25 kg).
- A distribution network at your service.
- Packaging adapted to your different raw materials, essential oils, absolute, concrete, powders, compositions, perfumes & aromas (citrus, rose, jasmine, iris butter...)

- Monobloc aluminum.
- Integrity: cleanliness, tightness, tamper evident closure, quality consistency.
- High end brand image for your products.
- Low carbon footprint right after the first recycling.

## Transporting Sampling

**Tournaire at your service**

- Market highest level of UN certified packaging.
- Providing compatibility and regulatory studies.
- Customization of bottles and closures.
- Optional security seal, cap chucks and pre-set tighteners.

## Absolutes Concretes

**Sampling**

- Small capacity bottles.
