

ALUMINUM

Closure by cover lid

Wide opening

Cut edge  
with body bead

Seamless aluminum  
container

100% recyclable

Storage of raw materials  
and compounds

- SOLID PRODUCTS
- VISCOUS PRODUCTS

## BOXES CC™ with Cover lid

Made of pure aluminum, the boxes range, offers a protection against shocks, compressions or perforations and maintains the integrity of your products thanks to the chemical neutrality of the aluminum.

From 125 cc up to 12L5, these boxes offer an ideal wide opening for packing and pouring solids and other products.

### MAIN USES

Fragrances and flavors: to pack concretes (fresh products), resinoids (dry products) and all sorts of powders.

Can be used for Beauty and Well Being products (candles, massage waxes...).

## BOXES CC™ with Cover lid

### LIGHT AND RESISTANT

- Pure aluminum.
- Chemical resistance ensured by aluminum, or if necessary food grade coating.
- Protection against light and UV.
- Aluminum container weight comparable to plastic materials.

### USER FRIENDLY

- Large opening for easy pouring.
- Easy to warm up in hot water.
- Complete emptying without residue.

### NICE LOOKING

- Plain aluminum finish.

### RECYCLABILITY

- High value of aluminum scrap.
- Container is made of 100% aluminum.

Note: user is responsible for checking the compatibility of its product with the Tournaire packaging system, see our general conditions of supply.

### A RANGE FROM 125 cc TO 12L5

Capacity per box (cc)	Quantity per box	Quantity per pallet	Ø body (mm)	Height with cover lid (mm)	Height without cover lid (mm)	Weight with cover lid (g)
125	480	-	59	50	30	25
315	304	3 040	74	83	62	42
625	165	-	88	114	93	65
1 250	126	924	99	172	152	130
2 500	60	480	120	232	209	200
6 250	26	182	175	274	242	350
12 500	9	90	220	352	320	780

Indicative data - Total height and weight without closure.
