

**Transport, sampling
and storage of aromatic
materials and compounds**

● LIQUID PRODUCTS

TYPE 9M6™

Made of pure aluminum, the 9M6™ range offers a protection against shocks, compressions or perforations and maintains the integrity of your products thanks to the chemical neutrality of the aluminum.

From 19 ml up to 160 ml, very light and resistant, the 9M6™ is ideal for sampling your products.

MAIN USES

Fragrances, flavors, beauty well being market (SPA, beauty institutes, cosmetics...).

TYPE 9M6™

LIGHT AND RESISTANT

- Pure aluminum.
- Excellent mechanical resistance against shocks, perforations and compressions caused during transport.
- Chemical resistance ensured by aluminum or, if necessary food grade coating.
- Protection against gas and light.
- Excellent thermal and electrical conductivity.
- Aluminum bottle weight comparable to plastic materials.

TIGHTNESS

- Seamless structure.
- Optimized land seal.
- Resistant and compressible liner (PE foam/Alu).

USER FRIENDLY

- Single system closure system from 19ml to 160ml, standard Europa 6 caps available in black or in white.
- Pre-pierced plug in option.

OPTIONS

- Plain aluminum finish as standard, or food grade coating.
- External lacquering.
- Silk-screen printing.
- Plug: standard or pre-pierced.

RECYCLABLE

- High value of aluminum scrap.
- Bottle is made of 100% aluminum.

Note: user is sole responsible for checking and ensuring the compatibility of its product with the Tournaire packaging system, see our general sales terms.

9M6™ RANGE - from 19 ml to 160 ml

Capacity per bottle (ml)	Quantity per box	Inside neck Ø (mm)	Outside body Ø (mm)	Bottle height (mm)	Label height (mm)	Weight (g)
19	1700	14	26	65	34	6,5
38	1000	14	35	71	33	11
63	500	14	35	101	63	15
125	430	14	45	111	65	35
160	300	14	50	118,5	68	27

Indicative data - Total height of the bottle with closure - Weight of the bottle without closure.

CLOSURES

Europa N°6 cap (black or white): 3800 per box • Standard or pre-pierced PEBD plug: 10000 per box
