Seamless aluminum  
container

100% recyclable

## Storage of raw materials and compounds

- SOLID PRODUCTS
- VISCOUS PRODUCTS

## ALU TIN CC™ with Cover lid

Made of pure aluminum, the Alu Tin CC™ range offers a protection against shocks, compressions or perforations and maintains the integrity of your products thanks to the chemical neutrality of the aluminum.

From 125 ml up to 12 500 ml, these containers offer an ideal wide opening for packing and pouring solids and other products.

### MAIN USES

Fragrances and flavors: to pack perfumery concretes (fresh products), resinoids (dry products) and all sorts of powders.

Can be used for Beauty and Well Being products (candles, massage waxes...).

## ALU TIN CC™ with Cover lid

### LIGHT AND RESISTANT

- Pure aluminum.
- Chemical resistance ensured by aluminum, or if necessary food grade coating.
- Protection against light and UV.
- Aluminum container weight comparable to plastic materials.

### USER FRIENDLY

- Large opening for easy pouring.
- Easy to warm up in hot water.
- Complete emptying without residue.

### NICE LOOKING

- Plain aluminum finish.

### RECYCLABILITY

- High value of aluminum scrap.
- Container is made of 100% aluminum.

Note: user is sole responsible for checking and ensuring the compatibility of its product with the Tournaire packaging system, see our general sales terms.

### ALU TIN CC™ RANGE - from 125 ml up to 12 500 ml

| Capacity per box (ml) | Quantity per box | Quantity per pallet | Body diameter (mm) | Height with cover lid (mm) | Label height (mm) | Weight with cover lid (g) |
|-----------------------|------------------|---------------------|--------------------|----------------------------|-------------------|---------------------------|
| 125                   | 480              | -                   | 59                 | 50                         | 33                | 25                        |
| 315                   | 304              | 3 040               | 74                 | 83                         | 65                | 42                        |
| 625                   | 165              | -                   | 88                 | 114                        | 93                | 65                        |
| 1 250                 | 126              | 924                 | 99                 | 172                        | 152               | 130                       |
| 2 500                 | 60               | 480                 | 120                | 232                        | 209               | 200                       |
| 6 250                 | 26               | 182                 | 175                | 277                        | 246               | 350                       |
| 12 500                | 9                | 90                  | 220                | 352                        | 320               | 780                       |

Indicative data - Total height of the bottle with closure - Weight of the bottle without closure.
