AMBER GLASS

Pour Out

The amber glass Pour Out bottles USP TYPE III are very well adapted for use in laboratories and sampling of compounds.

AMBER GLASS

Pour Out

USER FRIENDLY

- Neck designed for the best pouring.
- Single standard closure system.
- Their set-in lips are designed to be dripless, allowing precise control of content release.

TIGHTNESS

- GCM/GPI standard 28/430 mm with black bakelite cap or white urea phenolic cap.
- Conical inner plug in polyethylene.

MATERIAL

- Made in UV resistant glass, USP Type III Soda Lime Amber. The UV Light Protection of this amber glass complies with the max not more than 10% Light transmission requirements of USP. Of course the glass is 100% recyclable.

NOTE

See also our 9M6™ and SYSTEM PLUS® aluminum product ranges.

Note: user is sole responsible for checking and ensuring the compatibility of its product with the Tournaire packaging system, see our general sales terms.
